Lucky9 Labs - Security and Privacy Attestation

Q4. Consumer MFA Before Plaid Link Is Surfaced
Document Date: February 21, 2026
Response: Conditionally Applicable

Current Lucky9 deployments are private/ internal and do not expose a public consumer flow where Plaid Link is surfaced.

If this product is extended to external consumers, multi-factor authentication is required before Plaid Link is presented.

Deployment model: Lucky9 technology is primarily run on local premises or limited-scope cloud accounts.
Policy update notice: Lucky9 reserves the right to modify these controls for products extended to external consumers.
